## Abstract

*This article demonstrates typesetting tables and text in landscape mode*

**Keywords :** *Landscape mode is used when things do not fit into a classic page (usually in portrait mode). Here is how you handle landscape mode in  $\LaTeX$ .*

## 1 Tables in landscape mode

Here is a table in portrait mode ::

baba black-sheep have you any wool ?	Twinkle twinkle little star	Jack and Jill went up the hill
Some sheep have no wool	Some stars do not twinkle	Some kids dont go up the hill

And, here is a table too wide to go in a portrait mode page, so we put it in landscape mode (in a new page) :

one 1	Two 2	Trois 3	Quatre 4	Cinq 5	Six 6	Sept 7	huit 8
						<p>Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat. Duis aute irure dolor in reprehenderit in voluptate velit esse cillum dolore eu fugiat nulla pariatur. Excepteur sint occaecat cupidatat non proident, sunt in culpa qui officia deserunt mollit anim id est laborum.</p>	
one 1	Two 2	Trois 3	Quatre 4	Cinq 5	Six 6		Eight 8

## **2 Text in landscape mode**

Normally, text is printed in portrait mode. But sometimes you may want to see text in landscape mode. The landscape text always goes to a new page.

Lorem ipsum dolor sit amet, placerat salutatus id est, putent oblique at usu, ei his officiis ponderum constituto. Ut probo legendos vis. Sed ad esse nominati, cum numquam sententiae ea, pro eripuit fierent disputando ut. Quando voluptatibus his ad, noluisse facilisi at nam. Nam ex altera prompta accusata.

Delenit vocibus recusabo id his, ne movet cetero delicatissimi sea. Per ne tamquam sententiae. Ullum albucius democritum an mei, vero utinam soluta qui an, eu mea congue adipiscing. Mea ad everti assentior, vel eu agam veri concludaturque, dicta quidam concludaturque cu ius. Ad mea discere apeirian, cum modus delicata persecuti id, eos in quod omnium.

In populo labores laoreet eos. Accusamus scribentur vim id, an ferri dicit vituperatoribus duo. Ea mutat consetetur his, at vis consul epicurei menandri, nisl solum rationibus mea ad. In dico audiam vim, ius in graece accusata petentium.

4 Quem saepe accumsan id per, vel ei consulatu comprehensam, ex vidit antiopam vituperata quo. Et summo possit dissentiet nam, his at errem disputando, sit at soluta omnesque. Eos iudico audire ut, in nulla tincidunt qui. Vel te ignota omnesque persecuti, est odio nulla id, viderer aliquam vis ex.

Ad nostro tamquam lobortis pro. Mazim iriure option mei ut. Ea docendi democritum comprehensam ius, id eros animal usu. Malis iriure ea vim, utamur constituto suscipiantur quo eu.

And we come back to portrait mode (in a new page), after the `\end{landscape}` command. Hope this example convinces you.
